

More Tones and Semitones

Name: _____

The space between a note and its nearest neighbour is called a SEMITONE (or a half tone).

Two semitones make up a TONE (or a whole tone).

1. Write ST in each cell of the table that represents notes that are a SEMITONE apart. Write T in the cells where notes are a TONE apart.

 ST	 ST	 T	 ST
 ST	 ST Text	 T	 T
 T	 ST	 ST	 T
 T	 ST	 T	 T
 ST	 N/A +1.5		

2. Write ST in each cell of the table that represents notes that are a SEMITONE apart. Write T in the cells where notes are a TONE apart.
